# CENTRAL IDEA

The central idea throughout the entire project  
is the creation of a

curriculum of social skills

in nursery and junior school ( 3-14 years old ).

# CURRICULUM CREATION

The curriculum is developed following

## the stages of social competences development:

- ❖ Self discovery  
(the one and the other: the similarities and differences, the need for rules to be together)
- ❖ Self experience  
(recognize and control emotions)
- ❖ Self knowledge  
(discover strong and weak points, be able to choose according to their talents, making talents available)

# DIDACTIC COURSES

- For each stage of development there are some  
**didactic courses:**  
the toy shop, the museum, the book shop, the library, the stadium, the  
post office, the chemist
- Each didactic course has been realized using some  
**themes:**  
game, art, literature, sport, technology
- At the end of each didactic course a  
**common product:**  
snake and ladders, series of emotions, rainbow of emotions, talent  
book by 30 hands, olympic team games, video conferences,  
medicines is planned

# “GIVE ME FIVE” WEBSITE

The curriculum of social skills (with didactic courses) will be realized through the

site “Give me five”

to access the curriculum created by the teachers, the activities created by the pupils, the training courses organized by the university

# SITE “GIVE ME FIVE”

The site will represent the partnership and will consist of 9 sections:

- **the schools** (where it will be possible to have information about partner schools )
- **a square** (where it will be possible to see teachers' work on the curriculum)
- **a playroom** ( where it will be possible to see pupils' work and the final product)
- **a museum** ( **where it will be possible to see pupils' work and the final product** )
- **a toy shop** ( where it will be possible to see pupils' work and the final product)
- **a library** ( where it will be possible to see pupils'work and the final product)
- **a stadium** ( where it will be possible to see pupils' work and the final product)
- **a post office** ( where it will be possible to communicate with partners by e-mail, skype..)
- **a chemist** (where it will be possible to find “remedies” to solve the various difficult found in the project)
